

CURRY COLLEGE MSN

MASTER OF SCIENCE IN NURSING

NURSE EDUCATOR • NURSE LEADER

Pathway to MSN for Registered Nurses with a Non-Nursing Bachelor's Degree

This entry into Curry College's Master of Science in Nursing is designed for the nurse with an associate's degree in nursing and a bachelor's degree in another field.

The following prerequisite courses must be completed before beginning Master's level courses:

Course #	Title	Credits
MATH 1150	Statistics	3
NSG 2100	Transition to Baccalaureate Nursing	4

These following courses must be completed within one year of starting Master's level courses:

Course #	Title	Credits
NSG 3032	Population Health Nursing	5
NSG 3982	Synthesis of Nursing Practice	3

** With the exception of Statistics, all the above courses MUST be taken at Curry College.*

Admission

Students following this program are admitted to the Master's program conditionally, pending successful completion of the above courses within the time specified and a minimum grade of B- for the Nursing courses and C- for Statistics.

Tuition

The tuition for the undergraduate courses listed above (MATH 1150, NSG 2100, NSG 3032, NSG 3982) will be charged at the CE tuition rate in effect at the time of registration. For Master's level courses, students will be charged the cohort tuition rate in effect for the MSN program at the time they begin taking their Master's classes.

Registration

Registration for the above courses is on an open enrollment basis. Students should check the CE Course Schedule Guide or website at www.curry.edu/cegrad and register for courses in a timely manner.

MATH 1150 and NSG 2100 should be taken in the summer term prior to beginning the Master's level courses. NSG 3032 and NSG 3982 must be completed within 1 year of beginning the Master's level courses.
