 Student services offices at Curry College use holds on students' records in the computer system for a variety of reasons. Some of these holds may prevent you from accessing your student information. To resolve your hold(s) with the College, you need to contact the appropriate College office for the type of hold on your record. The telephone numbers for Curry offices are noted below for your convenience. Once your business with the College has been completed, the hold(s) will be removed from your record so you may view your student information.

# Move-In Logistics

# Move-In Times and Traffic Flow

- By August 14th, each student will receive an email with a specific move-in block. Typically blocks at 90 minutes long. The goal is to keep traffic, including traffic within the buildings, from getting gridlocked.
- After entering the main gate, cars will be directed to the tennis court lot for the first part of residential check in.
- If there are any holds for the student, the car will be directed to another lot to meet with the appropriate office to clear the hold
- If there are no holds, the car will be given a pass and directed to the appropriate residential unloading area
- At the residence hall, the student will receive a room key and our student athletes will help move things from the cars to the rooms
- Once unloaded, cars will moved away from building entrances to park

# What to Pack (and What to Leave at Home)
