

## **CURRY COLLEGE**

### **Pets Policy**

The presence of pets on Curry College campuses may create health, safety and sanitation concerns and may pose an increased risk of harm and damage to persons and property. Therefore, the College restricts the presence of pets on its property.

This Policy applies to all members of the College community, including students, faculty, staff, contractors, visitors and vendors.

This Policy is in effect on all College property, including the main campus in Milton and the Plymouth campus.

#### **A. Pets are Generally Prohibited from all Campus Property and Facilities**

Pets are generally not permitted in College buildings or on College property (including athletic fields and facilities). Students and resident staff may keep non-carnivorous fish (in tanks that are ten gallons or less in size) in College residential facilities.

#### **B. This Policy Does Not Prohibit Assistance Animals**

A “pet” is an animal kept for ordinary use and companionship. A pet does not do work, provide assistance, or perform tasks for the benefit of a person with a disability, and therefore is not considered to be an assistance animal. This Policy does not prohibit individuals with disabilities from seeking reasonable accommodations in accordance with the law and the College’s Assistance Animals Policy.

#### **C. Dogs**

The College permits individuals to walk a harnessed or leashed dog in outdoor areas of the College that are accessible to the public, so long as the dog does not endanger or harm College property or the safety of others, and that the individual cleans up after the dog. Dogs are not allowed on College athletic fields, or in College buildings or athletic facilities.
