Because of the Coronavirus threat, however, we must institute library policy changes.

Masks are only required to be worn indoors by unvaccinated individuals. Vaccinated individuals are not required to wear masks.

If you need reference or research help, a library staff person will direct you to a virtual reference station where reference librarians are available by chat, email, and virtual appointment.

We hope these restrictions will be temporary and aim to provide a space for you that is a refuge from your classroom and dorm, as well as the chaos of our world. Even in this time of caution and increased vigilance, brought on by the threat of COVID-19, our library is a hub of learning, and a place for the nurturing of community.

Best wishes for a great semester!
