### **Academic Advising, General Education, & e-Portfolio Overview**

**10:30-11:30am - AAPC G14 and Hafer MAC Lab**

Do you know how many credits you need to graduate? How many credits you need each semester to graduate on time? Our Academic Advising session will get you started on understanding your academic plan, including which credits you need and when you need to take them. Your faculty advisor will be a key factor in your success here, so working closely with them is important in understanding which Major, Minor, General Education, and Elective courses will work best for you. This session will also help you set up your personal college e-portfolio, which you will need in all of your General Education courses.
