

CURRY
COLLEGE

A Life-Changing Education

Made For You

Your interests. Your potential. A community that stops at nothing to help you thrive. Welcome to a place where learning is tailored to your needs and goals. Welcome to Curry College.

In the pages ahead, you'll see how Curry supports all kinds of learners. How we connect you with professors, support staff, and peers who can help you shine. How you can set your sights on the biggest goal you can imagine—and then decide to make it yours.

We'll help you at every step. Let's get started.

Ready for Podcasters Ready for Nurses Ready for Midfielders Ready for Actors

Ready for Your Passions

90+ academic programs tailored to your interests

Your learning journey at Curry isn't about following a set path. It's about forging a path that's authentically yours. Whether you're designing your own Individually Initiated Major, starting a club, or conducting research, academics at Curry are catered to what matters to you most.

Serenity Perkins '24 found a career direction at Curry, where she teamed up with Dr. Sandra O'Neil, Professor of Sociology and Criminal Justice, to create a new route into social advocacy: the Transformative Justice major. This program, the first of its kind in our region, empowers students like Serenity to develop alternatives to traditional justice systems and

advocate for those in need from beyond the systems' barriers. Now, the major is open to others who share her vision.

That's just one example. The next one is yours to create.

Create your own unique major or minor by combining classes across disciplines.

"When thinking about my future, I knew I wanted to help people and communities in a purposeful way."

Serenity Perkins '24
Transformative Justice

MAKE IT YOURS

Your education is yours to shape:

- Pursue individually initiated majors and minors
- Conduct research into cancer cells and more
- Document species in our protected campus wetlands
- Analyze mock crime scenes in forensic labs
- Lead service trips through groups like Habitat for Humanity and Give Kids the World
- Personalize your support for learning differences
- Attend faculty-led courses in London, Portugal, Ireland
- And more

Dive in on Day One

Curry students roll up their sleeves and gain valuable real-world skills right away. They find their voice on WMLN-FM and answer research questions in our microbiology lab. They study health practices in Portugal and take cooking classes in Florence, Italy, through our faculty-led travel courses. They strengthen research and writing skills in our First-Year program and analyze fingerprints in our Forensic Science Lab.

When Victoria Thomas '26 stepped into Curry's Nursing Simulation Lab & Training Center, she was amazed by the hands-on experience offered

by lifelike patient simulation manikins. With her professor guiding her through a two-way mirror, Victoria took vitals, administered treatments, and honed her communication skills. From her time caring for a grandmother with dementia, she knew that true care requires more than textbook skills. It requires real experience.

Whether you network in our Boston-based internships and clinicals or in our internationally recognized simulation labs, you'll graduate with skills to thrive in your chosen field.

HANDS ON

Shape your own immersive learning experiences starting your first year:

- Nursing Simulation Lab work
- Forensic Science Lab work
- CC8 television station access
- Practicums and clinical training
- Industry conferences
- Boston-based internships
- Global service-learning trips
- ThinkTANK design studio access
- WMLN-FM radio station and podcast studio access
- And more

"Curry gives you hands-on experiences much earlier than other colleges. By my sophomore year, I was already starting clinical training in the city. Talking to patients and aiding their anxieties has boosted my confidence to a whole new level."

Victoria Thomas '26
Nursing

**Made for

Made for Connection

You'll feel the warmth and support of our community as soon as you step onto campus. People like Julie "Jools" Pemberton embody the essence of the Curry spirit. She's a beloved member of our community and a familiar face at dining services for 15+ years. Whether she's greeting you by name, cheering you on at sporting events, or sharing her popular fried dough recipe, Jools's genuine kindness makes every student feel seen and valued.

At Curry, you'll find endless opportunities to connect, forge friendships, and meet mentors who get to know you on a personal level.

"The more you get involved, the more you'll feel like you belong. I get excited on Accepted Student Day because I get to welcome our new friends. And I'm always here if you need a hug."

Julie "Jools" Pemberton
Dining Services
Dedicated staff for 15+ years

MENTORS WHO CARE

"Long after you graduate, there will be a roommate, a classmate, a professor, an advisor, or a coach you remember. Someone who influenced you and played a big part in your life. That's what Curry is about."

Dr. Ryan Theroux
Professor
General Education

For Dr. Ryan Theroux, professor of General Education, college is about self-discovery and building a sense of belonging. In his class "First-Year Inquiry: Great Lives," students explore what it means to lead a fulfilling life. At Curry, you build the connections essential for a well-rounded life. That means meeting mentors like Dr. Theroux, who offer guidance and care as you shape your future goals.

Ready for Playmakers

MADE FOR VICTORY

Join or cheer on our 17 NCAA Division III teams:

- Baseball
- Basketball (Men's and Women's)
- Cross Country (Men's and Women's)
- Football
- Ice Hockey (Men's and Women's)
- Lacrosse (Men's and Women's)
- Soccer (Men's and Women's)
- Softball
- Tennis (Men's and Women's)
- Volleyball (Men's and Women's)

Perform on campus and compete nationally at Universal Dance Association events.

MADE FOR TEAMWORK

Meet new friends who share your interests through our club sports:

- Dance Team
- Equestrian
- Esports
- Golf
- Karate
- Men's and Women's Ice Hockey
- Men's Rugby

- Volleyball

Curry is made for your success on and off the field. Challenge yourself with support from our coaches, Academic Success Coordinators, and a community that shares in every victory.

ATHLETICS 11

"Success requires effort, discipline, confidence, and treating everyone with the respect they've earned. These are essential life skills that you build at Curry."

Andre Tippet
NFL/New England Patriots Hall of Famer
Sensei of the Curry Karate Club

Find Your Place

At Curry, you can pursue your ambitions to the fullest. On and off campus, you'll find the freedom to lead volunteer initiatives, attend local sporting events, and immerse yourself in dozens of student-led clubs.

For Yvonne Welsh '24, seizing every opportunity meant pushing herself beyond her comfort zone. So she served as president of the student government. Volunteered with Habitat for Humanity. Tried out for the Dance Team. Launched social events for students of color. Organized campus leadership conferences, and more. Her advisor helped her design her class schedule around her extracurricular commitments, so she had the time to pursue everything she wanted to experience. And she learned that putting herself out there meant becoming the leader she was always ready to be.

"People here aren't afraid to be themselves and express themselves. Everyone's invited in, and it's great to see people coming out of their shells."

Yvonne Welsh '24

access to Boston just seven miles away.

Schedule your campus visit to meet with
students, faculty, coaches, and staff who
are ready to welcome you.

Made for Your Ideas

Curry welcomes your big ideas and questions. Our science labs, on-campus Leadership Conference, ThinkTANK design studio, and active learning classrooms let you pursue your own research, creative projects, and entrepreneurship.

“My professor started a new research project with me based on what I was looking for. I don’t think I would have been allowed so much creativity and freedom to explore if I had gone anywhere else.”

Arielle Gilliam '24
Biochemistry

“At other institutions, undergraduate students rarely have the ability to publish their own research. At Curry, our students are listed as the first authors. In a competitive job market, that really stands out.”

Dr. Samantha Sawyer
Assistant Professor
Department of Natural Sciences and Mathematics

MADE FOR YOUR DRIVE

Arielle Gilliam '24, co-president of Curry's Women in STEM club, collaborated with her professor to design a new research initiative seeking to improve sunscreen performance. In the Science and Research Center in the Learning Commons, she learned how to master sophisticated equipment that's typically out of reach for undergraduates at other colleges. Inside the classroom, she led scientific conversations and found the space to explore new perspectives that influenced her research.

MADE FOR YOUR EXPLORATION

In Dr. Samantha Sawyer's class, students take their coursework outdoors to our protected campus wetlands, where they identify local insect species and photograph wildlife. Dr. Sawyer, New England's only board-certified forensic entomologist, believes active field research is critical. Working within the field empowers students like you to explore multiple areas of interest—sparking research projects, business ventures, and unexpected career paths.

“Curry is unique because the professors are active in their fields. They’re connected. And if you put in the work, they’ll help you out. They’re mentors I’ll talk to for the rest of my life.”

Michael Ouellette '24
Communication

Ready to Network

At Curry, you can forge relationships with industry leaders who connect you with jobs, internships, and future opportunities.

Michael Ouellette '24 chose Curry because he wanted to build his career with help from professors who would know his name. Working one-on-one gave him unique access—like getting on air at WMLN-FM his first year—which led to a competitive internship at Boston’s 98.5 Sports Hub radio. The experience connected him with station managers and hosts, strengthened his work ethic, and advanced his goal of becoming a producer.

He credits WMLN-FM’s director with giving him the hands-on experience that prepared him, along with the best advice he’s ever received: If something breaks, there’s always a fix. And if you show up and put in the work, others will show up for you, too.

Our dedicated professors and proximity to Boston mean you can build your own professional network—in healthcare, media, research, or any other field—right from the start.

BOSTON AND BEYOND

Curry students intern at:

- The Boston Globe
- Gillette Stadium
- TD Garden
- Boston Celtics
- FOX25 News
- MTV
- ESPN
- NESN
- The View
- The Massachusetts Governor’s Office
- Boston Children’s Hospital
- Beth Israel Deaconess Medical Center
- Dana-Farber Cancer Institute
- Mass General Brigham
- Franklin Park Zoo
- Habitat for Humanity
- Reebok
- And more

“Boston is one of the best places to make industry connections. My internship at the Cape Cod Baseball League built up my resume and my leadership mentality. That goes a long way in this world.”

Trevor Jacozzi '25
Sport and Recreation Management

Support Your Strengths

At Curry, we'll show you how to advocate for your needs and goals, so you can embrace everything that makes you *you*.

PROGRAM FOR ADVANCEMENT OF LEARNING (PAL)

Curry is the first college in the nation to create a program specifically designed to support students with ADHD and other learning differences. Our nationally recognized Program for Advancement of Learning (PAL) offers tailored accommodations and tools for test taking, time management, self-advocacy, communication and social skills, and more. Work with your PAL advisor to choose the accommodations that work best for you.

For Cheryl Kohl '26, Curry's personalized support meant meeting with her PAL advisor to create a study schedule and improve her time

management skills. She also received extra time for her exams in Nutrition. In Chemistry, where she felt more comfortable with testing, she told her advisor she didn't need the same accommodations. Tailoring her support on a class-by-class basis gave her the freedom to advocate for herself and trust in her strengths.

Cheryl also found a community within PAL—through meetups, trivia nights, donut-eating contests, and residence hall hangouts—where she knew her experiences and perspectives were embraced and understood.

SOCIAL ACHIEVEMENT IN LEARNING PROGRAM (SAIL)

This new program, launched in 2024, offers social assistance, transitional support, self-advocacy support, and accommodations for those with ASD, anxiety, or depression, including tools for understanding social cues and nonverbal

communication, initiating communication, sensory processing, and more. It's a way we meet everyone's needs with personalized care and expertise.

50+

years of PAL, the first program of its kind in the country

Top 10

Best Colleges List for students with learning disabilities by *College Magazine*

MADE FOR YOUR LEARNING STYLE

Curry's resources prepare you to succeed in and out of the classroom:

- Accessible textbooks
- Computer labs
- Disability accommodations abroad
- Emotional support animals
- Exam accommodations
- Housing accommodations
- Kurzweil readers and audio support
- Meal plan accommodations
- Multilingual support
- Technology accommodations
- Summer PAL program
- Support for social growth
- Support for time management
- And more

"Programs like PAL ease you into college while still giving you autonomy and control. A big draw for me was getting to choose my accommodations—and not having to take the ones I didn't need. That gives you the space to bloom."

Cheryl Kohl '26
Public Health and Wellness

**Made for
Who You're
Ready to
Become**

Bring your passion. We'll help you shine.

Made for Your Well-Being

Success comes in many forms. Curry’s comprehensive health resources help you thrive in every aspect of life. Whether it’s through yoga classes, quiet reflection in the James P. O’Toole chapel, healing counseling sessions, or our vibrant affinity groups, you’ll find the support you need to reach your fullest potential.

During your campus visit, say hello to Graham, our community resource dog named after Alexander Graham Bell, a former chancellor at Curry. Graham brings smiles and therapeutic support to those ready for stress relief or just a

furry friend. He’s already become a cherished member of our campus family, and you’ll often find him greeting guests at the office of Curry President Jay Gonzalez.

Across every corner of campus, faculty, staff, students—and Graham—join together to create a place where you can flourish.

Graham is top of his class in tail wags and belly rubs.

BUILT FOR THE WHOLE YOU

We’re ready to help you feel your best:

- Emotional support animal accommodations
- Accommodations abroad

Fitness Center

- Cardio and strength training
- Dance studio
- Group exercise classes
- Pilates, goat yoga, and more

Ready for Your Ambition

Skubie Mageza '14 knows the power of preparation. Moving to Boston from Zimbabwe with his mother and brother at seven years old, Skubie came with a dream—working on-air for ESPN. Coming to Curry made it happen. His first year, he began reporting from the sidelines for Curry's television station CC8 and editing and recording highlights. Soon after, Curry's career resources connected him with an internship at NESN, which led to his first job in the industry working behind the camera at FOX25 in Boston. By 2021, he found himself on set at the largest sports broadcast network in the world. Just like he'd planned.

Curry prepares you for success in any field. With our Curry Commitment, you'll begin shaping your future career from your first year, ensuring you're well-prepared to succeed as you transition into the professional world. Our Center for Global and Career Services connects you with internships, employers, and professional resources that are made for you to achieve your goals.

"Every professor at Curry gets to know you on a personal level and wants you to succeed. That was key in my development. My family came to this country with a dream, and I was able to achieve one of my own."

Skubie Mageza '14

THE CURRY COMMITMENT

Curry is the only college in Massachusetts to offer a job guarantee program, providing four years of career readiness in key areas like self-development, critical thinking, leadership, and teamwork. If you participate in the program and its requirements for all four years* and don't receive a job offer or graduate/professional school acceptance within six months of graduation, you can select one of the following options:

Loan Relief: We'll pay your federal student loan payments for up to 12 months while you receive ongoing guidance from your Curry career advisor.

Paid Internship: We'll connect you with a paid internship in your study area for up to 12 months, with continued career support from your advisor.

Graduate Studies Boost: We'll waive your first six credits of graduate studies at Curry, once accepted.
